

Letter To The Editor: Illegal Aliens

ON AUGUST 5, 2014 BY SUBMITTED

I am concerned that the illegal aliens that recently entered the country in the boarder serge will be permitted to come to Madison County. I would like to be proactive as a resident of Madison county and ask our county commissioners and school superintendent if they are going to make sure that persons who are in our country illegally will be stopped from taking resources from our citizens here in Madison County.

Will the illegal alien be required to show ID to open a bank account, enroll in school, vote, or register vehicles? Some cities are being told they can excuse these requirements. I am not afraid to say I cannot help these "poor people" when I have to ask, "Which one of my family or community members are going to go without as an illegal alien "takes"? Or, "Which law enforcement officer is going on the call for a person that is Not a citizen and is not a tax payer?" or "What about the teacher who has to change the classroom for a non-English speaker?"

Now if the federal government is allowing illegal aliens to walk our streets, then maybe they should pay for it. This county would be well served to be proactive and set aside funds to bus any illegal alien caught to the Washington DC.'s Immigration Field office at 2675 Prosperity Ave., Fairfax, VA 22031. Use our newly, hardworking business owner Annett Bus lines to bus them to Jacksonville to take the Amtrak Train. Amtrak's number is call 1 -800-872-7245.

On a final note, even if the federal government was willing to "pay for it" they cannot be trusted to see that illegal aliens are fairly processed. And I mean, fair to US. It seems that the fundamental transformation of America by Mr. Obama is resulting in our traditions to be ignored, and the laws of the land to be ignored. Does Mr. Montford still support Mr. Obama? If so, why? Now, will the local businesses be ready to NOT salivate over the hefty ebt cards that the government may give these illegal aliens!? If not, and they support these illegal aliens settling here, then they will be selling their souls and the souls of our county!
